Dear Dr. Henney,

I am writing in support of the lawsuit filed in May, 1999, challenging the FDA's policy that does not require labels on TRANSGENIC FOODS.

I am totally appalled that the U.S. "food /scientific" industry is playing "GOD" with our food supply. Pesticides are bad enough. Please stop this madness. FOOD is our medicine and TRANSGENIC FOOD is BAD MEDICINE

sincerely

Dear Commissioner of the Food and Drug Administration:

i'm writing to urge you to require the mandatory labeling of ail **genetically** modified food and to recommend that the US government require extensive, long-term safety testing of all GM food before it is allowed to be sold in the US.

Thank you for your support.

Sincerely,

Maureen E. Sweeney
